Greetings parents,

As we prepare for the coming school year of 2020-2021, we strive to follow guidelines set by the CDC to keep students, faculty and staff safe and healthy. In order to comply with these safety guidelines, it is important that each student come to Art class with their own supplies, and that there be no sharing of these. There will be no “common bins” or “class sets” provided in Art in order to keep the class environment as clean as possible.

I have revised the student supply list and added a few materials that were previously made available in class. Please label each item with your student’s name and class. Place items in a pouch or large zip-lock bag, also labeled accordingly.

Thank you for your attention to this matter, and your cooperation.

Yours truly,

Mrs. Pola
